**FLÄMSLÄTT, SWEDEN  
2-4 APRIL 2027**

In this enchanting workshop, we will explore the concept of the "Tree of Life" through the art of circle dance. Embrace the beauty of nature and the interconnectedness of all living beings as we dance together in a beautiful and nurturing environment.

The Tree of Life is a powerful symbol found in various cultures and spiritual traditions, representing interconnectedness, growth, and the cycle of life. It embodies the idea that all living beings are interconnected, with roots that connect us to the earth and branches that reach towards the divine. Spiritually, it signifies personal development, resilience, and the potential

to rise above challenges. The Tree of Life encourages us to recognize our place in the universe, reminding us of our origins, our experiences, and our aspirations, fostering a sense of unity and harmony within ourselves and with the world around us.
